Weightlifter - 900

This Food Trailer was built in 2024 for CTR CHICKEN , This stunning food truck is fully loaded and ready to start making money.

Mobile excellence for chefs. The glossy body made of GRP side panels looks great in 2 colors you choose. Available in 2 sizes 600–900.cm in length. The galvanized chassis ensures a long service life of the catering trailer.

This food truck sells from 150 to 400 Ctr menus each day when it charges.

Mobile kitchen trailer features large concession window for easy service and a range of appliances and equipment to meet your needs.

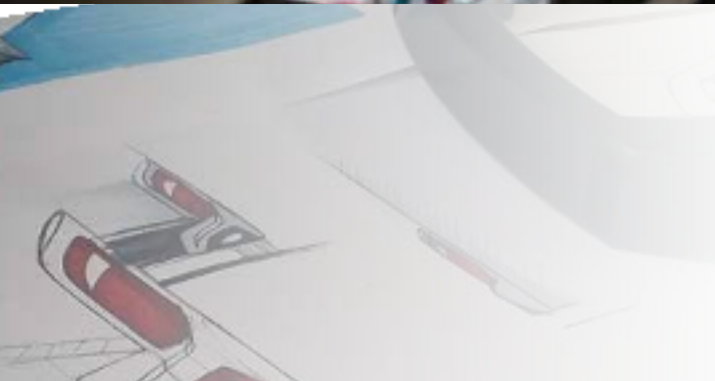

A new identity

Behind every mobile shop model hides the Product & Design team, who work continuously to make our mobile shops better looking, more functional and come up with innovations that improve your quality of work when on mobile shop.

This year, our creative team put forward a new identity that pays homage to fmb's exceptional heritage, which can be summed up in four words:

Innovation | Authenticity | Freedom | Togetherness

Made in Turkey with Turkish expertise

Our mobile shops are designed and produced in Antalya, Turkey, one of the largest manufacturing sites in Turkey

- 1 - 450.Lt Gray Water Tank
- 1 - Exterior Fresh Water Fill Port
- 1 - Drain Ball Valve
- 1 - Soap Dispenser
- 1 - Paper Towel Dispenser
- 1 - Top Mounted Shelf

Technology

INSULATION, RESISTANCE & PROTECTION

UNIQUE MARKET EXPERTISE

All our mobile shops, from entry-level upward, are produced by means of an exclusive process, referred to as IRP.

Better insulation

XPS STYROFOAM™ insulation, an extra-firm and stable hydrophobic foam offering excellent sound and heat insulation.

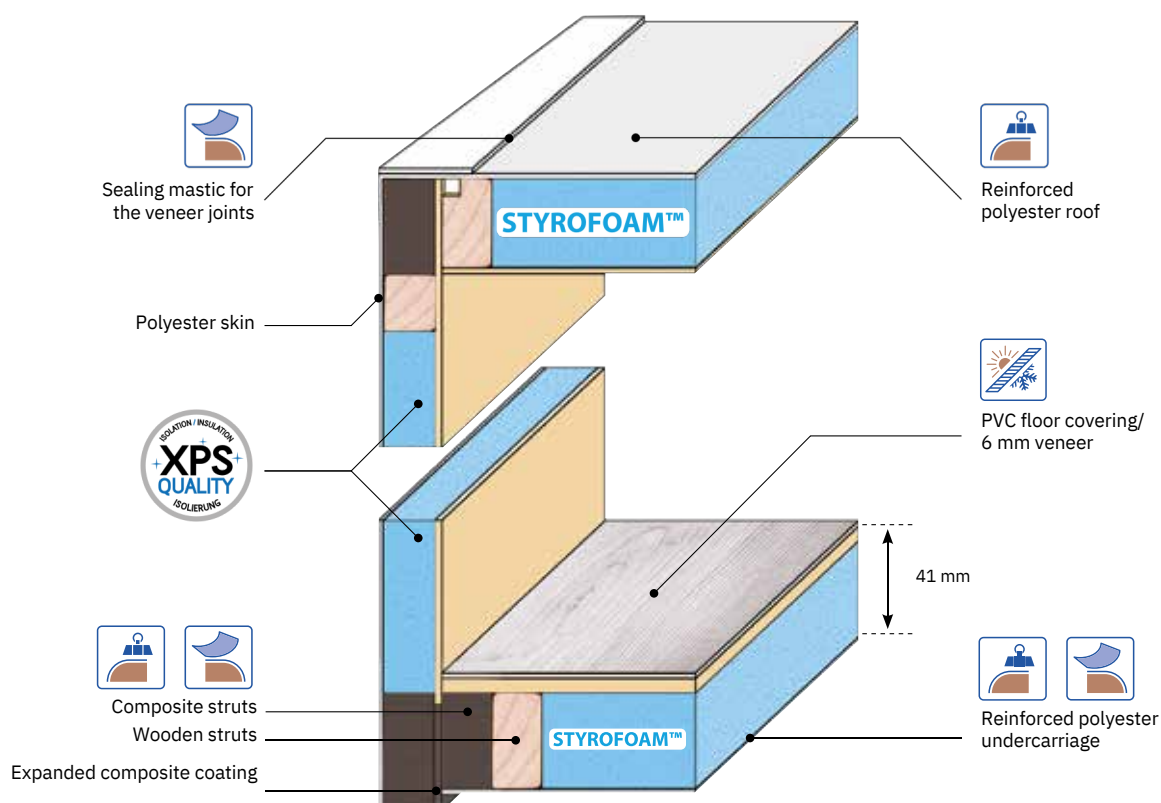

Improved resistance

An effective combination of grp/ composite which strengthens the framework of internal walls and floors, combining the durability of composite with the outstanding strength of grp.

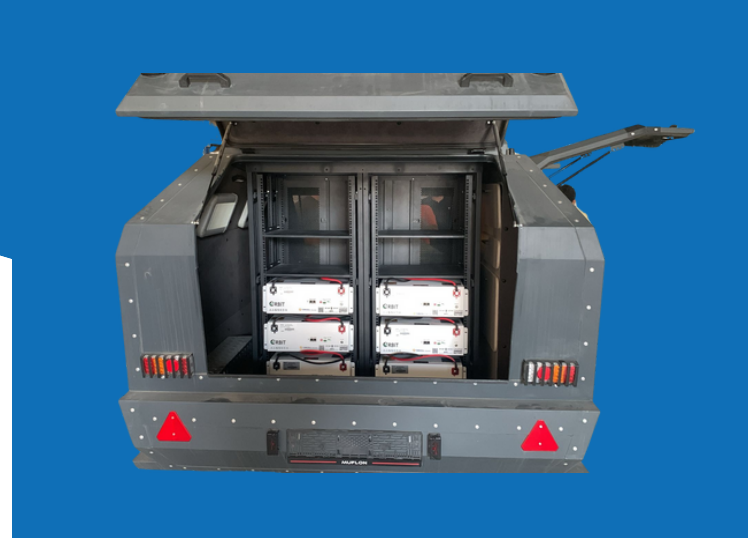

Increased protection

Protection provided by a polyester skin, offering enhanced resistance to scratches, small impacts, loose chippings, hydrocarbons, UV light and general bad weather.

Power Up Your Food Truck With Solar Panels

To create a solar powered food truck, solar panels are installed on the truck's roof to absorb direct sunlight. The sunlight is then converted to much-needed electricity for operating the appliances and devices in the food truck.

Mobile energy systems

Trailer

Hv inverter

Lithium batteries

60kw for wheightlifter 600

80 kw for wheightlifter 900

Easy to use

- Fast Installation
- Low maintenance
- Perfect fit for your car

Safe and Reliable

- IP67 for the battery
- IP54 for the energy storage vehicle
- 3C and European standard certification
